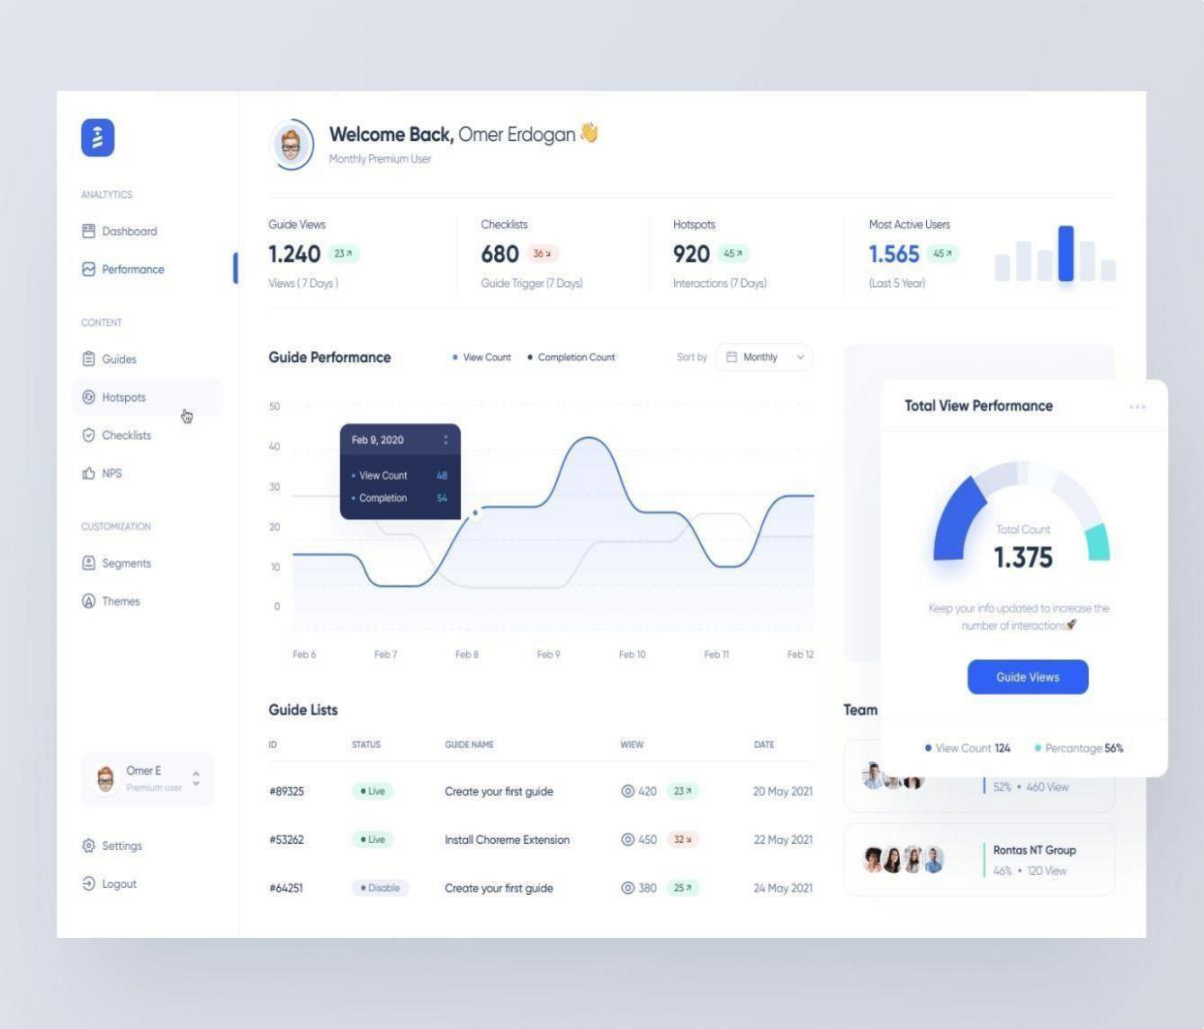
WEB DASHBOARD NODES FOR CREATE UI

Date	11 November 2022
Team ID	PNT2022TMID20019
Project Name	Project – IOT Based Real – time River Water Quality Monitoring and Control System
Maximum Marks	4 Marks



If you design a proper and modern UI dashboard, it will give the users easy access to the information they need. For this to happen, the dashboard information needs to be easy-to-scan and contain only the key information. But, with many tools available, it can be hard to make the right choice or not exaggerate with the use of features.

This is one of the many **roles of a UX designer** and as such, it demands knowing certain tricks to be handled the right way.
